

CCDTC Agility Handling Seminar

With Kathy Meyer

For Less-Advanced Handler / Dog Teams

Or For

Handlers Wishing To Progress To The Next Level

Dates: Saturday: *4 dates to be determined*

Times: 9:00am – 1:00pm

We are trying to determine the best dates for those who can be there for all 4 sessions.

If interested email Kathy at:

To.KathyMeyer@gmail.com

^ Use the "To."

Do any of these statements apply to you:

- My dog knows how to perform a short course of jumps and tunnels, but we might have difficulty with:
 - a refusal (when the dog goes past the obstacle or stops in front of it)
 - an off-course (when the dog takes an unintended obstacle)
 - or a dropped jump bar.
- Sometimes while on course, my dog doesn't pay attention, and might do "his own thing" OR he pays too much attention to me and misses the next obstacle.
- I want to better understand how to "connect" and communicate with my dog on course, from start to finish.
- My "Recipe for Success" needs some improvement. I feel that there are some gaps in my foundation handling skills.

*If you checked any of these boxes,
this seminar is for you!*

You Will Learn:

A tried-and-true system used by the most successful agility handlers that will show you how to consistently communicate with your dog using step-by-step methods that are easy-to-understand - for both you and your dog.

Prerequisite:

Dogs Need to

- know how to perform a short course of jumps and tunnels,
- be willing and able to follow the handler, off-leash, and
- have a start line stay.

Handlers Need to be

- familiar with the concept of agility handling,
- able to direct their dog over 4-8 jumps and tunnels,
- able to run well enough to keep up with their dog, most of the time
(Some basic sending might happen, but distance handling is not the focus),
- accepting of using food or toy rewards,
- available to attend, and on time for, all 4 classes.

Join us for this fun, informative seminar and learn the "secrets" that will improve your agility runs.
