

CCDTC FLOOR RULES

- Dogs must be on leash at all times when outdoors. Potty areas are behind the building and between the front parking lot and Kells Lane. Please clean up after your dog. DO NOT let your dog potty against the building, landscaping or bushes.
- Dogs must be on leash or crated whenever inside the building and not working in a ring.
- If there are no ring gates set up for member training, either set up gates, OR place gate panel(s) to barricade the entrance, which will let those coming into the building know that a dog is working off leash with no gating up.
- Members may use the rings anytime the class/individual sign-up schedule shows it is available. However, users must relinquish the ring and put away any equipment brought into the ring to its proper place at least 15 minutes prior to the start of any class or before the designated time of the next individual who has signed up.
- Do not adjust the temperature controls unless authorized by an instructor or board member.
 - The HVAC and Ceiling fans must be left ON at all times. They may be turned off for specific event needs.
- All members are responsible for good housekeeping.
 - Pick up after yourself: restore order to crates, chairs, and equipment. Dispose of all trash.
 - Pick up after your dog: clean up any accidents immediately and dispose of dog waste properly outside.
 - Return any equipment you brought into the ring to its proper place.
- If there is no one in the building when you leave:
 - Check to make sure all doors are locked, even if you did not open them.
 - Turn off all the lights. The light switches are on the wall to the left of the door to the store. There is a security light that will remain on.
 - Lock the entrance door by flipping the switch next to the door to the locked position and double check that the door has locked when you are outside the building.
