Trial Eligibility and ORTs

Basic Description of the Test

To successfully pass an ORT a dog must identify the location of the target odor, and the handler must correctly call an "alert" within a **two minute thirty seconds (2:30)** time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a **minimum of 36" apart**. The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same event.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: www.NACSW.net*

No dog will be given more than one space in the same odor test at a single event.

LOCATION DETAILS

ADA Site Specific Conditions

The ORT will be indoors on padded mat surface. The parking lot is on asphalt. There are no stairs required to either enter or exit the building. Indoor restrooms will not be available, but Port-o-lets will be available outside. No indoor crating will be available. Dogs should remain in the car. Food will not be available. There are a number of restaurants within a 5-mile radius. All dogs must be on a 6' leash at all times when not being tested. No flexi-leashes for walking dogs on test site grounds; flexi-leashes may be used in the test itself. Please clean up after your dog and respect the marked potty area.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, these conditions may be modified at the last minute.

Modeled after real-life detection work, NACSW events are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Events frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for physical demands and must be able to navigate the terrain with their dog accordingly. Handlers should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at events. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this event at their own risk.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, the details below may need to be modified at the last minute.

Parking

The parking lot is paved with no shade available.

RV Parking

Unfortunately, there is no space for RVs to park in the competitor parking area during the test day.

Running Vehicles or Generators in the parking lot

Although the parking is tight at this location, it will be possible to run your vehicles or generators in the parking lot.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Reactive Dog Parking

There will be reactive dog parking at this test for those who wish to park in this area as well as a separate potty area. However, not be separate warm up boxes.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Unentered Dogs

Unentered dogs must remain in the handler's vehicle during the event day. There will be ample potty areas, but unentered dogs should not be allowed to "play", exercise, or train on the event grounds.

Facility/Site Prohibitive Restrictions (e.g., smoking, firearms, alcohol, drugs, video)

Revised 11/1/24

Alcohol is not allowed on this event site
Smoking is not allowed on this event site including the use of e-cigarettes.

DOG INFORMATION

Dog Policies

- All dogs must be on a 6' leash at all times when not searching. NO flexi-leashes while not participating in a search.
- Reactive and/or spatially challenged dogs should wear a red bandana (to be provided by the dog's handler) to help signal others that the dog needs extra space from other dogs.
- Dogs will be toileted in designated areas and handlers must pick-up and dispose of waste.
- Dogs and handlers must stay in designated areas to avoid contaminating search space, interrupting a search, or from viewing any part of the searching.
- Handlers should expect to keep their dogs confined in a crate or vehicle when not searching. The logistics of an event typically do not allow for dogs to hang out on leash in between searches. Handlers should plan to provide their own shade using canopies or shade cloths.
- Refer to location details (above) for information on unentered dogs.

Females in Season

Females in season will be allowed to run wearing "pants" at the very end of the day after all other dogs have tested. Handlers with females in season should park and toilet their dogs away from the other dogs if the location logistics permit. Handlers must email the trial host, Edith Markoff, emarkoff01@gmail.com so plans can be made for the dog.
